ENVIRONMENTAL POLICY

Mission

Silvergate Plastics provide colour and additive masterbatch solutions that enable our customers to enhance their product offerings to the markets that they serve.

Vision & Values

Working together to grow Silvergate – aspiring to be a £12 million turnover business, delivering sustainable profit and becoming the number one choice for the markets that we serve.

Purpose

- To govern the environmental performance of Silvergate Plastics
- To supply customers with safe and legal products and service that enables them to fulfil their needs
- Integrate environmental management into Silvergate Plastics' business strategies in order to enhance competitive advantage
- Maintain open communication on environmental performance with stakeholders

The Policy of Silvergate Plastics is to

- Fulfil our compliance obligations and other specific commitments relative to our context.
- Protect the environment by minimizing the environmental impact of historic, current and likely future operations with a commitment to prevent pollution.
- Minimise the energy usage of current and future operations through our Climate Change Agreement.
- Supply products that will not present an unacceptable risk to the environment when used in compliance with product safety communications and common industry practices.
- Support the efforts of manufacturers seeking to implement greener solutions.
- Offer our customers recycled content masterbatches, bioplastic alternatives and a consistent batch to batch colour match service for those using recycled raw materials.
- Commit to the continual improvement of our environmental management system by setting objectives for environmental performance.
- Train our people in relevant environmental matters.
- Encourage our business partners to adopt this same accountability.

The Environmental Policy will be retained as documented information and will be reviewed annually. It will be made available to interested parties via our website and on request.

Sandy Bergeson
Managing Director
